Prisons leaving the city for the Samme san have Two Carrie malled to their address postage publi, for 50 cents per month.

WASHINGTON, JULY 23, 1887. THE artificial stimulation of limit gration by the steamship lines is the means of bringing to this country many persons whose solv capital is expended in the payment of their face. The transportation companies are governed in the matter by money consideration merely. It is at an interest to them citizens. The New Orleans I Democrat says upon this subjects

in this respect is apparent. The steamlimit of responsibility that will protect the United States against an indis-criminate importation of criminals, paupers and fugitives from justice.

THE Philadelphia Press claims the credit of having exposed the nefarious practice in that city of adulterating burns by the use of chromate of lead in place of eggs. We forget where the credit belongs of exposing another had Phila-delphia practice of raising flannel cakes with sulphuric acid and still another of making bread out of alum. which is said to be much in vogue among the bakers, but Tan Carrie is ready to allow full credit, wherever it belongs, to the disclosure of these Philadelphia peculiarities, with the hope that all who are guilty of such atrocious culinary methods may be brought to condign punishment. We would suggest, in view of the approaching centennial colehration in the Quaker City, that the influx of visitors on that occasion will be immensely in-creased, if some public assurance can be given that the gastronomic cylis complained of no longer exist. Let the authorities see to it that akum, chrome yellow and sulphuric actd are eliminated from the hitchen cupboards of the Quaker City and a clean bill of aith be posted on the outer gates.

Tun friends of the President West and South have got tim pretty well corralled now, and we cannot see how he can escape their hospitable importunities. We trust that he may not. Such expressions of good will as Mr. Cleveland is receiving from Chicago, St. Louis and other points are not to be lightly considered and set aside. He owes it to these people, even at the sacrifice of his own private convenience and the postponement of other less im-portant public business, to accept the calls that are made upon him and go out among his fellow-citizens as one of them, one with them, and of the same hopes, sympathies and interests. Greater than the sight of King receiving the homage of his subjects is the spectacle of a Democratic President shaking hands and exchanging courtesies with the sovereigns of whom he is the chosen trustee and representative.

THE Federal Constitution was com-September 17, 1787, by the convention illed for that purpose which met in the May preceding. It is the centen-nial of this event which is to be celebrated in September next, and for which such arrangements as the short time of preparation would permit, have been made and are now in progress. It will no doubt prove a creditable dem-onstration to the enterprise and lib erality of Philadelphia, but will hardly rise to the importance of a great na-tional affair. The Centennial of the Constitution, to be celebrated in Washlagton in 1889, will callst not only the support of Congress and the whole people, but the on operation of all the Constitutional governments of the Western continent.

A LINE of stanmers has been organized to run between the United States and Mexico. One would naturally suppose that such an enterprise as this would swing the American flagno; its stips will sail under Mexican colors, and will be benght where they can be had for the least money. Ameri consequently the American buyer, who cannot understand why he should be taxed 15 to 25 per cent, over outside prices, goes to some other country for his flag and his ship. It this is the way to build up our shipbuilding industry, it is a mighty queer way,

So THE color line is to be drawn a International Encampment Chicago, and no troops of African descent will be permitted to take part. It is well to have the matter clearly understood at the outset that there may be no hard feelings or misunderstand-ings later on. Due notice is given that this is to be an International Encampment of white soldiers only. No ored folks need apply. It might No col made a note of, though, that in the

adoption of this action the Northern city of Chicago has done what the Southern city of Richmond would no

CONGRESSIAN GROSVENOR of Ohlo is unable to see why the Republican State Convention should not pass a reso-lution tadorsing Senator Sherman for the Presidency. But what jurisdiction has a convention called to nominate a State ticket this year, over a conven-tion to be called next year for the choice of delegates to a national convention? The delegates will still blieft as free as they over were to barte
